

FIRE POLICY

Do not panic, but do not under-estimate the potential danger to customers or staff represented by a fire. At the first indication of smoke or flame, investigate the situation to determine location and extent of the fire. If the fire can obviously be contained and extinguished quickly and safely by staff, proceed to do so. However, if there is any doubt about whether the fire can be controlled, immediately call 911 or the fire department and then clear the building.

The time to think about fires is before they happen. All staff should be oriented to the type, location, and application of the fire extinguishers in the building.
